Hey Guys,

I just wanted to show you my new song I posted to Soundcloud.

<https://soundcloud.com/efsmb/sets/stone-cell>

One of my proprietary entertainment products.

It's called STONE CELL, it's a political protest song against this evil and torturous system of denial of basic food, and then the resulting mental breakdown starvation causes is classified as a "medical issue" requiring a "stone cell" to help you feel better. When the issue is no food, obviously.

The total deprivation of all food, mixed with punishing the resulting mental deterioration with time in the STONE CELL, well the hypocrisy of this mindset is outlined in the songs.....

If you want you can look through them, I know you guys, you've been following this story, you probably will.

Don't worry guys, I have enough food to get through the day, and the promise of more tomorrow, I am stable for at least 2 days, as the problem is FOOD BASED, CAMH cannot help me. Nor is torture in a stone cell, therapeutic.

Nor is food provided upon exiting the Cell.

Sam, could you pay Christine 300 extra per month to be distributed to me in my normal weekly payments? or they even be their own 75 dollar payments on Wednesdays.

Let me know what you think.

Regards,
Brendan S. Rose
